President Bush Says He Expects Balance to Run Down to Normal in Carry Trade. Papers Signed in New York.

Announcement of a close working agreement between the Western Mining and Lumber Co. and the Pittsburg and Lake Erie Railroad Company was made today after a meeting of the Western Mining and Lumber Co. in New York.

The contract was executed, leaving immediate extension of line to Cumberland, Me., in connection with the Pittsburg and Lake Erie line at Cumberland, Me., and provides for full traffic arrangements between the two lines, opening lines and terminals of which are in the hands of the other company and its through connections.

The Pittsburg and Lake Erie road is operated in harmony with the Western Mining and Lumber Co. and Michigan Southern owning a large interest in the Western Mining and Lumber Co. and its through connections.

President Benjamin F. Bush, of the Western Mining and Lumber Co., said that he would not be surprised if, in a few years, new steamship lines from Baltimore to Europe and South America would be established as a result of the arrangement by which the Western Mining and Lumber Co. becomes the terminal of the Western Mining and Lumber Co. and its through connections.

Mr. Bush admitted that such a line would be considered by the interests behind the new alliance.

If the New York Central management will allow freight tonnage on its Western lines to be brought to the Western Mining and Lumber Co. it will mean that this harbor will be one of the busiest in the world.

The volume of loss of freight from the great manufacturing centers of the West are shipped to New York, and there transferred to steamers for Europe, South America and other parts of the world. Baltimore is entitled to a large part of this freight on account of its proximity to the West.

Imports for the Central West and the South should naturally flow through this port, and it is hoped that the Baltimore merchants and shippers will be able to get a large part of the work to the disadvantage of Baltimore.

Work on the new link of road between Cumberland and New Haven, which will be operated by the Pittsburg and Lake Erie and other Vanderbilt roads will have connection with the Western Mining and Lumber Co. and its through connections.

Following is the list of the Liberty Bell School, Liberty township, W. P. Weston, principal, for fourth month ending December 24, 1909. Enrollment: 40. Average attendance: 38.00. At attendance: 85.
